Assemble the new Brothers on each side of the altar, after the four-man move is completed, have each candidate get on the step and Du-Gard of a Fellow Craft. They all, will repeat the obligation.

After the obligation, you will have each one of the candidates one at a time, kiss the Holy Bible as you pass it before them. They will then observe everything while standing in line. When the WM is explaining the grip and words you will get each candidate on the different grips and show them while the explanation is given. When the Brother kneeling is told arise, and after the four-man move is complete, and before the lines move, you will take the new Brothers back to their seats.

The next thing will be the apron lecture. When the exemplar brother is conducted to the Senior Warden, have all new Brothers stand in place, and when it comes to the proper time in the lecture, you will place their aprons in the proper Manor and they will be seated.

At the conclusion of the second section, have all candidates remain seated until after the funeral dirge, and the lines are formed alongside the grave. You will then move all candidates into lines, leave enough room between them for the raising. When KS says he shall prevail, at that time have all candidates lay down with their heads to the wall, have the intenders come out and get in place(two intenders for each brother) and raise them all together.

After KS and SW leave the grave and before the lines are dissolved you will take all candidates except the exemplary to their seats.

When the signs are given, the coordinator and intenders will perform the same duties as SD with each new Master Mason.

At the conclusion of the Master Mason degree, the W.M. will perform all the congratulations to all the new Brothers, only the ones who are new members of the host lodge will be conducted by the S.D. to the secretary's desk to sign By-Laws.
